Perfect Storm

DEFINE the contributing factors that make geriatric patients much more vulnerable to dental caries—meds, dry mouth, loss of dexterity, diet, food traps, bone loss, dysphagia, dementia, dental IQ

Senior Ergonomics

DESCRIBE & DEMONSTRATE techniques that make dental treatment more comfortable for the older patient as well as the dental team from getting them in the office, getting them into the chair, making it comfy, X-ray taking technique, stand up exam/prophy, and restorative techniques.

Geriatric Gadgets

THREE time-saving tools that will make geriatric dentistry more predictable, profitable, and fun. Gadgets for

- Xrays
- Prophy
- Restorative
- Comfort

Pick Your Battles

UNDERSTAND that treating seniors can be like raising kids—you can't win every battle. Identify which treatment options are possible and which are not.

- Start slow—learn as you go
- Anesthetic
- Restorative options
- Denture philosophy
- Prevention program that works

Libero purus sodales mauris, eu vehicula lectus velit nec velit.
